
Month-end Close

Step-by-Step Task Guide

A beginner-friendly walkthrough of RedTeam's monthly financial close — preparing the books, reconciling accounts, building each entity's financial package, and sending the revenue and expansion reports to the team.

Source: "Month-end Close Knowledge Transfer" recording + its Google Meet transcript

Recorded: July 17, 2026, 12:00 PM MDT (approx. 55 minutes)

Presenter / trainer: Greg Coble • **Trainee:** Connor Schone

Systems: QuickBooks Online (Paser, RedTeam Software, RTP Consolidated), Google Drive, Ramp, Wise

How this guide was built. Steps, screenshots, and on-screen values were read from the recording's video frames, and the green "From the meeting transcript" quotes are **verbatim** from the meeting's Google Meet transcript (lightly trimmed for filler words), tagged with speaker and timestamp.

This is a "part 1." A few areas (Ramp card access and the Wise funding calculation) were flagged for their own follow-up sessions, so they are summarized here rather than shown step-by-step.

The big picture

Three companies, classes not account numbers, a 4–5 day close

RedTeam keeps books in three QuickBooks Online companies — **Paser**, **RedTeam Software**, and **RTP Consolidated**. The chart of accounts uses **account names** (not numbers), and transactions are organized by **class**, which means **department**. Each month you finalize the books, reconcile every account, and produce a **financial package** per company. All the working files live in shared Google Drive folders (**Accounting RTS** and **Paser**).

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:11:06

“Class is effectively department... Client Experience is broken down into implementation, success, support; general and administrative is executive management, management, and operations; then we have infrastructure, product development, marketing, and sales.”

Timeline. The close runs about **four to five days**, and it's fine to take extra time for accuracy. The one hard rule: **enter every vendor bill and customer invoice before you start**, or the numbers won't be right.

The Month-end Close Checklist — the running list of close steps used to work through the month.

Part I — Prepare the books

Get everything in before you start closing

Step 1 — Send the month-end notification and gather inputs

Kick off the close by emailing all employees to submit their invoices, expenses, and receipts — the same email also covers the **Ramp** corporate-card reminder. Send reminders as the close date approaches, since people tend to procrastinate on receipts. Locate the shared folders you'll work from: **Accounting RTS** and **Paser** hold each month's financial package.

- 1 Send the month-end close notification (with the Ramp reminder) to all staff.
- 2 Send reminders near the close date.
- 3 Open the **Accounting RTS / Paser** folders in Google Drive for this month's package.

The shared Google Drive accounting folders where each month's files live.

Step 2 — Enter all vendor bills and customer invoices

Before closing, make sure **every vendor bill and customer invoice** is entered — this is the foundation of an accurate close. **Team Player** invoices feed into QuickBooks automatically and are sent out on the **first of the month** using **Batch actions**.

- 1 Enter all outstanding **vendor bills**.
- 2 Enter/confirm all **customer invoices**.
- 3 On the 1st, send **Team Player** invoices via **Batch actions**.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:22:46

“The next thing on my list is enter all vendor bills and all customer invoices.”

Coding a bill you’re unsure about. Search for a previous transaction from that vendor, duplicate it, and just update the date and amount — that keeps the class/account coding consistent.

Step 3 — Apply cash receipts and do the daily banking

Checks are deposited by Susie in the Orlando office into the **Florida** and **Pinnacle** banks, and she keeps a **deposit log** in Google Drive (with separate tabs for RedTeam Software and Paser). Apply those deposits to the correct invoices, and keep the daily banking squared away so everything reconciles later.

- 1 Check the Google Drive **deposit log** (RedTeam Software / Paser tabs) and bank remote-deposit alerts.
- 2 Apply each deposit to the correct customer invoice.
- 3 Keep daily banking current.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:27:57

“She keeps a log of all the checks that come in... I apply those checks... I make sure all the deposits are in and take care of the daily banking.”

Part II — Reconcile and classify

Clean up classes, reconcile the bank, tie out the balance sheet

Step 4 — Review transactions with no class

Every transaction should carry a **class** (department). Review the “**Class is not specified**” list — QuickBooks payment fees are a common culprit — and assign the correct class (payment fees go to **Operating**). This keeps the by-class reports accurate.

- 1 Open the **Class is not specified** transaction list.
- 2 Assign the correct class to each (payment fees → **Operating**).
- 3 Re-check that the by-class reports foot correctly.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:27:57

“I review transactions for no class — try to have everything with a class attached to it.”

Assigning a class to a transaction that came in without one.

Step 5 — Reconcile the bank accounts

Download the bank statements and use QuickBooks Online's **Reconcile** tool for each account. Greg has historically reconciled **daily** to keep it simple, but doing it **weekly** is an acceptable alternative — just make sure it's complete before you finalize.

- 1 Download each bank statement.
- 2 Use **QuickBooks** → **Reconcile** to match transactions.
- 3 Reconcile daily or at least weekly; finish before closing.

Date	Description	Amount	Fund	Prior Transfer	Prior Fees	Current Transfer	Current Fee
August 25	Q2 Inc	\$2,100.18	\$2,100.18	\$2,100.18	\$12.34

Support Giovanni	Orlantez	USD \$97.40	\$97.40	\$97.40	\$5.99		
Support Maaila	Kimberley	USD \$68.33	\$68.33	\$68.33	\$4.47		
Support Kirk	Bernabe	USD \$278.13	\$278.13	\$278.13	\$1.81		
Support Justin	Formae	USD \$278.13	\$278.13	\$278.13	\$1.81		
			\$19,454.87	\$19,454.87	\$118.08		

Reconciling a bank account in QuickBooks Online.

Step 6 — Reconcile the balance sheet accounts

Every month, reconcile each **balance sheet** account against its **detail file** so the balances tie back to the financials. For example, **unearned revenue** was about **\$170,000**. **Deferred revenue** for RedTeam Software is kept in a **separate file** because it's so large (see the RevRec + Deferred Revenue guide).

- 1 Open the detail file for each balance sheet account.
- 2 Verify the balance ties to the balance sheet; investigate any difference.
- 3 Use the separate deferred-revenue file for RedTeam Software.

The screenshot displays the QuickBooks interface for PASKR, Inc. The main window shows a Transaction Report for January 1st, 2020. The report is filtered by 'All' and 'All' for the date range. The table lists transactions with columns for Transaction date, Transaction type, Main, Name, Description, Account Name, and Amount. The transactions include payments to vendors like 'Kia Bernabe', 'Domenico Brindani', 'Jenna Rizzo Gervasi', 'Brian Javed', 'Hendrick Media', 'Cherishan Farmstead', 'Dennis Javed', 'Justin Van Houten', and 'Brianna Latorre'. The amounts range from \$50.00 to \$1,000.00. The report also includes a 'Journal Entry' section for 'Profit Contractors' and 'Profit Contractors'.

A balance-sheet detail/reconciliation view in QuickBooks.

Part III — Financial package & handoffs

Produce the statements, then the AR, revenue, and expansion reports

Step 7 — Build each company's financial package

For **Paser**, **RedTeam Software**, and **RTP Consolidated**, produce the monthly financial package: a **Profit & Loss**, **Balance Sheet**, **AR aging** report, and an **allowance for doubtful accounts** reserve analysis — all reconciled and tied back to the financial statements. Run the P&L **by class** to see performance by department; any class can be assigned to any account, so review by-class views for accuracy.

- 1 Run **P&L**, **Balance Sheet**, **AR aging**, and the **allowance** analysis per company.
- 2 Run the P&L **by class** to review each department.
- 3 Tie every figure back to the statements; save the package to Drive.

The screenshot shows the Paser Profit and Loss report by class for January 1-30, 2026. The report is organized into columns for different departments: CR, Implementation, Success, Support, Total for CR, GSA, Executive Management, Operations, Total for GSA, and Subtotal. The rows list various revenue and expense categories, including AP/ Fee, Broker Fee, Broker Fee Adjustment, Custom Programming, Discounts, Hosting Fee, Hosting Percent Fee, Integration Fee, Support, RDU/DL Online Fees, Set Up Fee P&L, Training/Consulting, Total for Revenue, Cost of Goods Sold, Cost of Goods Sold, Service/Support Fees, Hosting Fees, Support Services, Related Company Charges, Subscriptions, ESI Contractors and Con., Systems Coordinator, Total for Subscriptions, Total for Cost of Goods, Total for Cost of Goods S., Gross Profit, Expenses, Bad Debt, Bank Charges, Commissions and Consultant, Commissions and Consultant, Other Taxes, Payroll Expenses, Professional Fees, Accounting, Total for Professional Fe., Quoted/Quoted Planning Fees, Related Company Charges, Subscriptions, Total for Expenses, Net Operating Income, Net Other Income, Net Income, and Net Loss. The report shows a net income of \$5,475.56 for the period.

The monthly Profit & Loss for the entity, by month.

Step 8 — AR aging and churn

Create and save the **AR aging** report by copying the aging table from the financials into an Excel spreadsheet. Handle **HubSpot churn notifications** for **Go** clients by updating the client's status in the system and notifying the CX leads (**Taylor Cartmill** and **Tracy**).

- 1 Copy the AR aging table into the Excel AR aging file and save it.
- 2 For each Go churn notification, update the client's status.
- 3 Notify CX leads Taylor Cartmill and Tracy.

Updating a Go client's status (churn handling) in RedTeam Go.

Step 9 — Revenue & expansion reports, and Wise funding

Finish by refreshing the reports the CX team relies on. Update the **percentage billing** file from the P&L (run after billing). Update the **bracket fee adjustment** report and the **Team Player** report; these use transactional data to compute clawbacks and **MRR/ARR** increases. Send the **percentage**, **bracket**, and **Team Player** reports to CX together.

Separately, fund **Wise** for overseas contractor payments around the **25th–26th**, using the funding spreadsheet (salary components plus quarterly incentives). Greg and Connor planned a dedicated session to walk through Wise.

- 1 Update the **percentage billing** file from the post-billing P&L.
- 2 Update the **bracket fee adjustment** and **Team Player** reports (clawbacks, MRR, ARR).
- 3 Send percentage + bracket + Team Player reports to the CX team together.
- 4 Fund **Wise** (~25th–26th) using the funding spreadsheet.

The contractor/Wise funding spreadsheet used to calculate the monthly transfer.

Quick reference

Classes, the package, and the close order

Classes (departments)

Group	Classes
Client Experience (CX)	Implementation, Success, Support
G&A	Executive Management, Management, Operations
Product	Development, Management, QA
Other	Infrastructure, Marketing, Sales
Revenue (varies by entity)	Paser: Paser / Param-zero • RedTeam: Fieldlens, Team Player, Flex (split New / Renewal)

Close order (checklist summary)

- 1 Send the month-end + Ramp notification; gather receipts.
- 2 Enter all vendor bills and customer invoices; send Team Player invoices (batch) on the 1st.
- 3 Apply deposits from the log; finish daily banking.
- 4 Assign classes to any “no class” transactions (payment fees → Operating).
- 5 Reconcile bank accounts and every balance-sheet account.
- 6 Build P&L, Balance Sheet, AR aging, allowance package for Paser, RedTeam Software, RTP Consolidated.
- 7 Update AR aging + handle Go churn; send percentage / bracket / Team Player reports to CX; fund Wise.

Financial package (per company)

- Profit & Loss (also by class)
- Balance Sheet (with account reconciliations)
- AR aging report
- Allowance for doubtful accounts reserve analysis

About the quotes. The green “From the meeting transcript” quotes are verbatim from the meeting’s official Google Meet transcript (lightly trimmed for filler words).
