
RedTeam Finance

Knowledge-Transfer Guide Index

An onboarding packet of ten step-by-step guides covering RedTeam's billing, payroll, cash receipts, vendor payments, corporate cards, contractor payments, month-end close, revenue recognition, and the financial model — each built from its recorded knowledge-transfer session and Google Meet transcript.

The guides (suggested onboarding order)

#	Guide (PDF)	What it covers	Pg.
1	RedTeam Go Billing	Legacy "Go" product billing: client setup, the 25th monthly run, reconciliation, payments	23
2	RedTeam Flex Billing	Current "Flex" product billing: HubSpot deal → QuickBooks invoice; the 25th renewals run & exceptions (incl. Part 2)	22
3	APS Payroll	Running payroll in APS: exceptions, time cards, the pay batch, audit & submit, then GL export to QuickBooks (incl. Part 2)	20
4	Vendor Payments & Cash Receipts	Client deposits, then paying vendors (bill pay/ACH/wire); plus treasury: inter-company transfers & funding Wise (incl. Part 2)	25
5	Month-end Close	The monthly close across Paser, RedTeam Software, and RTP Consolidated	14
6	RevRec + Deferred Revenue	Recognizing prepaid revenue: Go/Paser journal entries and the Flex deferred-revenue file (incl. Part 2)	25
7	Cash Receipts & Application	Applying incoming customer payments: matching the bank feed, and handling returned/disputed payments	9
8	Ramp Corporate Cards	Administering corporate cards: users, spend controls, coding & syncing to QuickBooks, reconciling	10
9	Wise Contractor Payments	Paying international contractors via Wise: fund each entity, send, record in QuickBooks, statements	11
10	Proforma Financial Model	The linked Excel model of P&L actuals, unit economics, and ARR forecast; the monthly update from QuickBooks & HubSpot	10

All ten PDFs live in this same folder. Read in order for onboarding, or jump to the one you need.

By area

Billing (customer revenue in)

- **RedTeam Go Billing** — the legacy Go product; billed on the 25th (bracket / percentage / flat models).
- **RedTeam Flex Billing** — the current product; acquisitions and renewals, tiered/APV pricing.

Cash in / cash out

- **Cash Receipts & Application** — apply incoming customer payments; handle returned/disputed payments.
- **Vendor Payments & Cash Receipts** — apply client deposits, then pay vendors (bill pay / ACH / wire) with Craig's approval.
- **APS Payroll** — the APS system (appspayrollonline.com); semi-monthly pay run.
- **Wise Contractor Payments** — pay international contractors via Wise; record in QuickBooks.
- **Ramp Corporate Cards** — administer cards, code & sync spend to QuickBooks, reconcile the statement.

Close, revenue recognition & planning

- **Month-end Close** — reconcile and produce each entity's financial package; expansion reports.
- **RevRec + Deferred Revenue** — amortize prepaid subscriptions; keep the schedules that support the balance sheet.
- **Proforma Financial Model** — the linked Excel model (P&L actuals, unit economics, ARR forecast); update monthly from QuickBooks & HubSpot.

The finance calendar (key recurring dates)

When	What
1st & 15th	Paydays (APS payroll). Submit two days prior, by 3:00 PM Central.
1st of month	Send Team Player invoices (batch); begin month-end close.
~25th	Monthly / quarterly billing run for Go and Flex.
~25th–26th	Fund Wise for overseas contractor payments.
Day 3 (following month)	Deferred-revenue / revenue-recognition work (after all invoicing is in).
First 4–5 days	Month-end close window (accuracy over speed).

Living documents. The **RevRec + Deferred Revenue** guide now includes its **Part 2 / Follow-up** section (the journal entry and worksheet tie-out). Others still have a Part 2 scheduled (Flex Billing, APS Payroll, Month-end Close), and Vendor Payments has follow-ups planned (a Wise walkthrough and a file/folder-location session). When those recordings and transcripts arrive, the follow-up content is **added as a new 'Part 2 / Follow-up' section inside the matching guide above** — not published as a separate guide. Source recordings and transcripts live in Google Drive; build assets are in this folder's **_guide_assets**.
