
RedTeam Go Billing

Step-by-Step Task Guide

A beginner-friendly walkthrough of RedTeam Go client billing — setting up new clients, running the monthly billing on the 25th, reconciling in QuickBooks, and handling payments and customer inquiries.

Source: “Go Billing Knowledge Transfer” recording + the meeting's Gemini notes

Recorded: July 14, 2026, 2:30 PM MDT (approx. 62 minutes)

Presenter / trainer: Greg Coble • **Trainee:** Connor Schone

Systems: Go Manager (go.redteam.com/manager), QuickBooks Online (the PASKR company), with Panda Docs, HubSpot, and the Intuit payment portal

How this guide was built (updated). Steps, screenshots, and on-screen values were read from the recording's video frames, and the process detail is grounded in the meeting's **Gemini meeting notes** — so the blue “From the meeting notes” callouts are accurate summaries of what was said. Unlike the APS Payroll session, this meeting did not have a separate word-for-word transcript, so these callouts are summarized notes rather than verbatim quotations.

The big picture

Two phases, three pricing models, and the 25th

Go billing happens in two systems. **Go Manager** (go.redteam.com/manager) is where each client and their pricing live and where the monthly run is executed; it calculates the complex pieces (bracket-breaks, percentage-based contracts, and hosting) that QuickBooks can't. **QuickBooks Online** (the PASKR company) is where invoices and payments live. The two link per-client through a **QuickBooks ID** on the Go Manager customer record.

FROM THE MEETING NOTES

*Clients use three pricing models — **APV, fixed, and tiered**. In tiered models, if pricing increases it stays at the higher rate until renewal, then returns to the lower rate. Greg has created indicators in QuickBooks and in the products/services field to distinguish the client types. The team cannot unilaterally change an existing client's plan — pricing changes happen at renewal through the Customer Success team.*

The work splits into two phases:

- 1 **Set up new clients** (any time a sale closes, and always before the 25th): complete their Go Manager billing fields and QuickBooks customer + first invoice.
- 2 **Run the monthly billing on the 25th**: generate billing in Go Manager, send to QuickBooks, reconcile, handle exceptions, and send invoices.

The golden rule. Every new client must have their Go Manager fields — especially the **QuickBooks ID** — filled in **before the 25th**, or they'll be missed in that month's run. Billing runs on the 25th to accommodate legacy percentage- and bracket-based contracts.

Part I — Set up a new client

Do this whenever a sale closes — and always before the 25th

Step 1 — Find the new client in Go Manager

When a sale closes, a **HubSpot** notification triggers the accounting setup. In Go Manager, open the client list to find the new client. The list shows each client's accounting status, client status (e.g. *Kick-Off*), company, start date, rep, and internal ID.

- 1 Watch for the HubSpot new-sale notification to accounting.
- 2 Open **Clients** in Go Manager and locate the new client (often a *Kick-Off* status).

FROM THE MEETING NOTES

When a sale occurs, a HubSpot notification triggers the setup process for the accounting team.

Go Manager → client list; new clients typically show a Kick-Off status.

Step 2 — Complete the client's billing fields (and QuickBooks ID)

Open the client's **Accounting** panel and fill in the billing setup: **billing plan**, **gross amount**, any **discount**, the **account integration fee**, and the **QuickBooks ID**. The QuickBooks ID is what links this client to their QuickBooks customer so billing transfers correctly — it must be filled in before the 25th.

- 1 Open the client's **Accounting** panel in Go Manager.
- 2 Enter the **billing plan**, **gross amount**, and any **discount**.

- 3 Enter the **QuickBooks ID** (from/for the matching QuickBooks customer).
- 4 Save.

FROM THE MEETING NOTES

For new clients, specific fields must be completed — billing plan, gross amount, discounts, and the QuickBooks ID, which allows accounting integration. All new clients must have this ID filled out before the billing process starts on the 25th.

The screenshot displays the RedTeam Go Manager interface. The left sidebar shows the 'Accounting' section selected. The main content area is divided into two panels. The left panel, titled 'Argus Building Company', contains the 'Accounting' section with the following fields:

- Bill Via Credit Card:** ☐ (unchecked)
- Payment Via ACH:** ☐ (unchecked) | **Enter CC:** ☐ (unchecked) | **Request CC:** ☐ (unchecked)
- Accont Integration Fee:** 50.00
- Billing Plan:** Tiered Pricing (selected)
- Fixed/Elastic/Tiered Fee:** 1167.00
- Discount Plan:** Discount Recurring Promo (selected)
- Discount Rate:** 30.0000 %
- Set Monthly Rate:** -- Select Rate -- (selected)
- Contract Flat Rate:** 0.00
- Bracket:** (empty)
- Contract % Rate:** 0.00000
- Hosting Fee:** 0.00
- Capped Contract Amount:** 0.00
- QuickBooks ID:** 1388

At the bottom of the Accounting panel is a 'Save Accounting Info' button and a summary: 'Setup Fee: \$0.00 YTD Usage: \$84,826'.

The right panel, titled 'Contacts', shows a table of contacts:

Employee	Title	Phone 1	Mobile	Email	A	C
Curtis Harrison	SUP	(228) 207-1341	(228) 424-2312	curtis.harrison@argusbuidls.com	☐	☐
Eddie Railey	SUP	(228) 207-1341	(228) 236-4660	eddie.railey@argusbuidls.com	☐	☐
Eric Bean	PM,EST			eric.bean@argusbuidls.com	☐	☐

Below the contacts table is a 'Correspondence' section with a 'Filter' button and radio buttons for 'Client' (selected), 'Sales', and 'Accounting'.

The client Accounting panel — billing plan, discount, and the QuickBooks ID that links to QuickBooks.

Step 3 — Set up the customer in QuickBooks Online

Create or complete the customer in QuickBooks using the details from the signed **service agreement** — customer name, address, email, and company name. If something is missing, reference the agreement in **Panda Docs**.

- 1 In QuickBooks (PASKR company), open or create the customer.
- 2 Enter name, address, email, and company from the service agreement.
- 3 If information is missing, look it up in **Panda Docs**.

Tax exemption is rare. Most clients are for-profit and taxable. If a client says they're exempt, send the first invoice with tax applied, then update their status and adjust the invoice once confirmed.

QuickBooks Customers — find or add the client.

The screenshot shows the QuickBooks Online 'Customer' profile for 'Argus Building Company'. The interface is divided into several sections:

- Customer Details:** Includes fields for 'Select a primary payment method', 'Sales form delivery options' (set to 'Send later'), 'Language to use when you send invoices', and 'Credit Limit'.
- Additional info:** Includes 'Customer type' (set to 'Select'), 'Sales tax' (with a checkbox for 'This customer is tax exempt'), 'Select tax rate' (set to 'Automated based on location'), and 'Opening balance' (with a date field set to '07/14/2026').
- Custom fields:** A section for adding customer details, sort, filter, and track.
- Relationships & Sales:** Includes fields for 'Sources', 'Referred by', 'Job title', 'Role', 'Preferred contact method', and 'Social media'.
- Transaction List:** A table showing transactions for 'Argus Building Company' with columns for DATE, TYPE, NO., and CUSTOMER. The table includes a 'Total' row.

A 'Save' button is located at the bottom right of the form.

Completing the customer profile from the service agreement.

Step 4 — Create the first invoice

Create the invoice with the customer's name, address, and email. **Select the class “Paser – RedTeam Go.”** Check that the **invoice date is current** and that the correct **billing plan** and **gross amount** are entered. For unearned revenue, use the specific line items for annual subscriptions.

Most Go clients are billed monthly, but some agreements are billed **annually** (full amount upfront). For annual billing, add the term and invoice frequency in the notes and attach the service agreement. It's

also routine to send a **W-9** to new clients for their vendor setup.

- 1 Create the invoice; confirm name/address/email.
- 2 Select the class **Paser – RedTeam Go**.
- 3 Verify the invoice date is current and the billing plan / gross amount are correct.
- 4 Use the annual-subscription line items for unearned revenue where applicable.
- 5 For annual billing: bill the full amount upfront; add term + frequency and attach the agreement in notes.
- 6 Send the client a **W-9**.

FROM THE MEETING NOTES

When creating the invoice, the class 'Paser Red Team Go' must be selected. Check that the invoice date is current and the appropriate billing plan and gross amount are entered. For annual agreements, add the term, invoice frequency, and service agreement attachment in the notes.

Part II — Run the monthly billing (the 25th)

Generate in Go Manager, send to QuickBooks, reconcile, and send

Step 5 — Prep, then generate billing in Go Manager

In Go Manager's billing area, first do the pre-step: click **Mark Checked in QB** to clear out existing credit-card activity. Then run the billing: click **Generate Billing**, and when prompted, **Send to QuickBooks**. Go Manager calculates the complex pieces QuickBooks can't — bracket-breaks, percentage-based contracts, and hosting.

Do not interrupt this process — let it finish completely before doing anything else, or it can throw errors.

- 1 Click **Mark Checked in QB** to clear existing credit-card activity.
- 2 Click **Generate Billing**.
- 3 When prompted, click **Send to QuickBooks**.
- 4 Let it finish completely — do not click away or interrupt.

FROM THE MEETING NOTES

Before starting, Greg clicks 'Mark Checked in QB' to clear existing credit-card activity. The billing process involves clicking 'Generate Billing' then 'Send to QuickBooks.' It is critical not to interrupt this, as it can cause errors.

Ignore "Review Differences." The **Review Differences** feature in Go Manager is currently non-functional — don't rely on it. Reconcile in QuickBooks/Excel instead (Step 7).

The screenshot shows the RedTeam Go Manager Billing interface. The navigation bar includes tabs for Financials, Statistics, Billing, Clients, Sales, Client Experience, and Product. Below the navigation bar are sub-tabs: Name Lookup, Collections, GC Charges/Credits, Monthly Billing, and Reports. The main table displays invoice details for two customers: Aeque Builders, LLC and American Allied Construction. The table columns include #, Customer, Billed, Inv #, Inv \$, Chk #, Paid, Balance, Paid Date, and YTD. A 'Mark Checked in QB' button is visible for each invoice.

#	Customer	Billed	Inv #	Inv \$	Chk #	Paid	Balance	Paid Date	YTD
1	Aeque Builders, LLC	06/25/2026	0	468.00	CC	☒	0.00	06/25/2026	Faxes YTD
2	American Allied Construction	06/25/2024	Pending	500.00		☒	500.00		Faxes YTD

		11/25/2024	Pending	575.00		☒	575.00		Faxes YTD
		12/25/2024	Pending	575.00		☒	575.00		Faxes YTD
		01/25/2025	Pending	575.00		☒	575.00		Faxes YTD
		02/25/2025	Pending	500.00		☒	500.00		Faxes YTD
		03/25/2025	Pending	575.00		☒	575.00		Faxes YTD
		04/25/2025	Pending	725.00		☒	725.00		Faxes YTD
		05/25/2025	Pending	725.00		☒	725.00		Faxes YTD

Go Manager billing — Mark Checked in QB, then Generate Billing → Send to QuickBooks.

Step 6 — Verify the invoices imported

After the run finishes, confirm the invoices made it into QuickBooks Online by searching for the most recent client in the invoice/sales-transactions list. If any invoice failed to create, you can build it manually (see the tip).

- 1 In QuickBooks, open **Sales** → **Sales transactions** (or Invoices).
- 2 Search for the most recent client to confirm the batch imported.

- 3 Note anything missing for manual creation.

If an invoice didn't create. Build it manually in QuickBooks by **duplicating the previous month's invoice**, updating the date, and verifying the line items.

The screenshot shows the QuickBooks interface for 'Sales transactions'. At the top, there are summary boxes for 'Estimates', 'Unbilled income', 'Overdue invoices', 'Open invoices and credits', and 'Recently paid'. Below these, a bar chart visualizes the data. The main section is a table of invoices. A dropdown menu for the 'Date' filter is open, showing options like 'All', 'Custom dates', 'Today', 'Yesterday', 'This week', 'Last week', 'This month', 'Last month', 'Last 30 days', and 'This quarter'. The 'Today' option is highlighted. The table lists various invoices with columns for DATE, TYPE, NO., CUSTOMER, MEMO, AMOUNT, STATUS, and ACTION. The total amount at the bottom is \$711,085.95.

DATE	TYPE	NO.	CUSTOMER	MEMO	AMOUNT	STATUS	ACTION
7/8/25	Invoice	27907	Old Town Design		\$300.00	Overdue 5 days Viewed 7/8/25	View/Edit Receive payment

6/25/25	Invoice	27854	Steel City Commercial Corporation		\$404.00	Overdue 19 days Viewed 6/25/25	View/Edit Receive payment
Total					\$711,085.95		

Verifying the imported invoices in QuickBooks Sales transactions.

Step 7 — Reconcile with the Sales by Customer Summary report

To find adjustments, run the **Sales by Customer Summary** report in QuickBooks for the period, then export it to Excel and compare the current month's invoices against prior months. Variances usually come from bracket-breaks or percentage-based contracts — which are expected.

- 1 In QuickBooks Reports, open **Sales by Customer Summary**.
- 2 Set the date range (use Custom dates for an exact period).
- 3 Export to Excel and compare against previous months.
- 4 Flag variances to work through as exceptions (Step 8).

FROM THE MEETING NOTES

Greg runs a 'Sales by Customer Summary' report in QuickBooks, exporting to Excel to compare the current month against previous months. Bracket-breaks are also emailed to accounting@redteam.com when Go Manager runs, making those changes easy to spot.

The screenshot shows the QuickBooks interface for 'Sales transactions'. At the top, there are summary boxes for various financial metrics: \$0.00 (0 estimates), \$0.00 (Unbilled income), \$133,576.17 (106 overdue invoices), \$163,510.56 (112 open invoices and credits), and \$240,881.44 (183 recently paid). Below these is a horizontal bar chart. The main section is a table of sales transactions. A modal window titled 'Custom dates' is open in the center, showing 'Start date' as 06/25/2026 and 'End date' as 06/25/2026. A red error message 'Invalid date range' is displayed below the end date field. The modal has 'Reset' and 'Apply' buttons. The background table lists transactions with columns for DATE, TYPE, NO., CUSTOMER, MEMO, AMOUNT, STATUS, and ACTION. The total amount at the bottom of the table is \$711,085.95.

DATE	TYPE	NO.	CUSTOMER	MEMO	AMOUNT	STATUS	ACTION
7/8/26	Invoice	27907	Old Town Design Group		\$300.00	Overdue 8 days Viewed 7/8/26	View/Edit Receive payment
7/8/26	Invoice	27905	Avinya Construction Management		\$270.02	Overdue 8 days Viewed 7/8/26	View/Edit Receive payment
6/25/26	Invoice	27900	WEBMyers Construction		\$1,538.00	Overdue 19 days Viewed 6/25/26	View/Edit Receive payment
6/25/26	Invoice	27898	Water & Woods LLC		\$550.00	Overdue 19 days Viewed 6/25/26	View/Edit Receive payment
6/25/26	Invoice	27897	Vuncannon and Sons			Overdue 19 days Sent 7/19/26	View/Edit Receive payment
6/25/26	Invoice	27896	Vesta Construction G			Overdue 19 days Sent 7/19/26	View/Edit Receive payment
6/25/26	Invoice	27895	Utopia Renovations			Overdue 19 days Sent 7/19/26	View/Edit Receive payment
6/25/26	Invoice	27894	TriGriffin Group			Overdue 19 days Viewed 6/25/26	View/Edit Receive payment

Ready 24 of 224 records found Accessibility: Good to go

Exported to Excel to compare months and flag variances.

Step 8 — Work through the exceptions

Reconciliation is really about clearing a short list of known exception types. Greg's advice: knock out the easy, known issues first (prepaid voids, missing integration fees), then handle the judgment calls. Common cases and how to handle them are below.

- 1 **Missing \$50 integration fee:** open the invoice and add the accounting integration line.
- 2 **Prepaid (12-month) clients:** the system may still generate an invoice — **void** it so it isn't sent.

- 3 **Churned but billed:** credit out / write off; note “**prepaid churn**” or “**write-off**” in the spreadsheet.
- 4 **Rejected payment / double billing:** apply the payment to the correct invoice and note the reason.
- 5 **Discount / rounding discrepancies:** compare to prior months and adjust manually.

FROM THE MEETING NOTES

Bracket/percentage variations are expected. Prepaid clients' auto-invoices must be voided. Churned-but-billed clients are credited/written off and noted as 'prepaid churn' or 'write-off.' Missing \$50 integration fees are a simple manual add.

The screenshot displays the RedTeam Go Manager Billing interface. At the top, there's a navigation bar with a search icon and the text "Navigate: Find transactions, contacts, help, reports, and more." Below this, a summary bar shows three financial metrics: \$133,576.17 (108 overdue invoices), \$163,510.56 (112 open invoices and credits), and \$240,881.44 (183 recently paid). The main table lists customers with columns for COMPANY NAME, PHONE, and OPEN BALANCE. The table includes 20 rows of customer data. At the bottom of the table, there's a status bar indicating "meet.google.com is sharing your screen." with buttons for "Stop sharing" and "Hide".

COMPANY NAME	PHONE	OPEN BALANCE
0012 Building Solutions Inc.	204-855-1154	\$0.00

Adgeu Builders, LLC	412-209-3140	\$0.00

Working an exception directly on the invoice in QuickBooks.

Step 9 — Finalize and send the invoices

Once adjustments are done, send the invoices in **batches** from QuickBooks. Select all the invoices on a page and **review them first** so you only send intended invoices — specifically avoid sending any **voided** invoices. Invoices are copied to **accounting@redteam.com** as a record of transmission.

The 25th isn't a hard stop — if you get stuck, you can finish the remaining adjustments the next day without significant disruption.

- 1 Select all invoices on the page in QuickBooks.
- 2 Review to exclude voided or unintended invoices.
- 3 Send the batch; copy **accounting@redteam.com**.
- 4 If needed, finish leftover adjustments the following day.

Bracket-break notices and sent-invoice records flow through accounting@redteam.com.

Part III — Payments & customer inquiries

How clients pay, and how to respond to accounting@ requests

Step 10 — How payments come in

Most payments are processed through the **Intuit portal**, which auto-applies payments to invoices. There are **no automatic draws** — customers must click the payment link and pay each time. Some clients who also use QuickBooks have **autopay**, so an invoice may already be paid (zero balance) when it's time to send — still send it so they have the document for their records.

- 1 Let the Intuit portal auto-apply incoming payments.
- 2 Remember there are no auto-draws — customers pay via the link each time.
- 3 For autopay clients showing a zero balance, still send the invoice for their records.

FROM THE MEETING NOTES

Payments run through the Intuit portal and auto-apply. There are no automatic draws — customers must proactively click the link and pay. Autopay clients may show a zero balance; send the invoice anyway for their records.

Step 11 — Respond to customer inquiries (accounting@)

When a customer emails **accounting@redteam.com** about a missing invoice or a payment request, help them from QuickBooks: select the specific invoice and use **Send** / **Send reminder**, or provide a **payment link** via **Share invoice link** — copy the link into your email reply.

- 1 Open the customer's invoice in QuickBooks.
- 2 Use **Send** or **Send reminder** to re-send it, or
- 3 Choose **Share invoice link**, copy the link, and paste it into your reply.

The screenshot shows the QBO Intuit interface for a customer named Maynard C. Smith Construction Company. A modal window is open, titled "Send your customer a link to their invoice". The modal contains the following text:

Send your customer a link to their invoice

Skip the cluttered inbox and share an invoice link instead. Your customer can download, print, or pay it in an instant.

<https://connect.intuit.com/portal/app/Comm>

[Help us improve invoice links \(short survey\)](#)

Buttons: Copied, Done

The background shows the customer's financial summary with an open balance of \$0.00 and a transaction list with items like "Closed" and "Paid".

Share invoice link — copy the payment link into a reply to the customer.

Quick reference

Systems, the monthly run, and exception handling

Systems

System	What it is	Used for
Go Manager	go.redteam.com/manager	Client setup, pricing, monthly billing run
QuickBooks Online	the PASKR company	Customer invoices, sending, payments
Panda Docs	e-signature / agreements	Reference for the signed service agreement
HubSpot	CRM	New-sale notification that triggers setup
Intuit portal	QuickBooks Payments	Customers pay; payments auto-apply

The monthly run, in order

- 1 **Before the 25th:** every new client has billing fields + QuickBooks ID set.
- 2 **Mark Checked in QB** to clear existing credit-card activity.
- 3 **Generate Billing → Send to QuickBooks** (don't interrupt).
- 4 Verify the import (search the most recent client).
- 5 Run **Sales by Customer Summary** → export to Excel → compare months.
- 6 Work exceptions: integration fee, prepaid voids, churn write-offs, rejected-payment fixes, manual invoices.
- 7 Send invoices in batches (exclude voided); copy accounting@redteam.com.

Exception cheat-sheet

- **Missing \$50 integration fee** → open invoice, add the integration line.
- **Prepaid 12-month client** → void the auto-generated invoice.
- **Churned but billed** → credit/write off; note “prepaid churn” or “write-off.”
- **Rejected payment / double billing** → apply payment to the correct invoice; note the reason.
- **Invoice didn't create** → duplicate last month's, update the date, verify lines.
- **Bracket/percentage variance** → expected; confirmed via the bracket-break email to accounting@redteam.com.

About the callouts. The blue “From the meeting notes” callouts summarize the meeting's Gemini notes (accurate paraphrase). This session had no word-for-word transcript, so they are not verbatim quotations. If you turn on Google Meet transcription for future sessions, exact quotes can be included as in the APS Payroll guide.
