
Wise Contractor Payments

Step-by-Step Task Guide

A beginner-friendly walkthrough of paying RedTeam's international contractors through Wise — funding each entity, sending each payment, recording it in QuickBooks, and pulling statements for reconciliation.

Source: "Wise Knowledge Transfer" recording + its Google Meet transcript

Recorded: July 23, 2026, 12:30 PM MDT (approx. 30 minutes)

Presenter / trainer: Greg Coble • **Trainee:** Connor Schone

Systems: Wise (paser & RedTeam entities), recorded in QuickBooks Online

How this guide was built. Steps, screenshots, and on-screen values were read from the recording's video frames, and the green "From the meeting transcript" quotes are **verbatim** from the meeting's Google Meet transcript (lightly trimmed for filler words), tagged with speaker and timestamp.

Related guide. Funding the Wise account (the wire transfers that put money into Wise) is covered in the **Vendor Payments** guide. This guide picks up once Wise is funded — paying the contractors.

The big picture

Fund each entity, pay each contractor, record in QuickBooks

RedTeam pays its overseas contractors through **Wise** — cheaper than standard bank wires. Both entities live in one Wise login, but their money is kept **separate**: **Paser** is funded by wire to **Pinnacle Bank** and **RedTeam** by wire from **One Florida Bank Treasury Management**, and you **toggle** between the two balances in Wise. Once funded, you pay each contractor in Wise, then record each payment in QuickBooks against the **Transfer Wise** account. Most amounts barely move month to month; watch for quarterly **incentives** and a few payment-method exceptions.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:02:11

“Even though we’re working in the same application, we can toggle between entities... we’ve got the Paser balance, and if I toggle over to Red Team, I’ve got the Red Team balance.”

The steps

System: Wise, recorded in QuickBooks Online

Step 1 — Fund the two entities (separately)

Before paying anyone, Wise must be funded — and Paser and RedTeam are funded **separately** so the money stays distinct. Paser is funded by a wire request to **Pinnacle Bank** (via Scotty); RedTeam by a wire created in **One Florida Bank Treasury Management**. In Wise, use the entity **toggle** to switch between the Paser and RedTeam balances. (Calculating and sending those funding wires is covered in the Vendor Payments guide.)

- 1 Confirm Paser is funded (Pinnacle Bank wire) and RedTeam is funded (One Florida Bank).
- 2 In Wise, toggle to the correct entity balance before paying its contractors.

The Wise app beside the contractor pay sheet — work one entity's list at a time.

"The funds have to be kept separate coming for each entity... I sent the request to Scotty to create the wire at Pinnacle Bank to fund Paser, and I went to One Florida Bank Treasury Management to fund Red Team."

In the correct entity balance, go to **Recipients**, pick the contractor, and click **Send**. Enter the **USD amount** from the pay sheet, then check the **converted amount** the contractor will receive — if the exchange rate makes it slightly off, adjust until the converted figure equals their intended pay. For the **reference number**, reuse the last one and just change the month: it's the contractor's **initials + month of pay**.

- 1 Toggle to the entity; go to **Recipients** and select the contractor → **Send**.
- 2 Enter the USD amount; confirm the converted amount matches their target pay (adjust if needed).
- 3 Set the reference = initials + month (copy the prior one and change the month).

The screenshot displays a 7wise payment interface on the left and a Microsoft Excel spreadsheet on the right. The 7wise interface shows a payment of 2,112.72 USD from a main account to Caleb Doman, with a total of 129,770.33 USD. The Excel spreadsheet shows a detailed breakdown of payments, including columns for date, name, company, currency, and amounts. A video call window is visible in the bottom right corner.

Wise Contractor Payments — Step-by-Step Task Guide

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:04:37

"The amount that we're going to convert... matches what we have as far as the pay. If the exchange rate or the amount is slightly different, we just adjust this until we get to the amount we actually want to pay."

If Wise asks about the reference. If Wise emails asking whether the reference is a person's name, reply **"no"** — they don't allow names in references and will hold the payment otherwise.

Step 3 — Review and send

Click **Continue** to review. Confirm again that the converted amount equals the pay, then enter the **amount** and the **fee** so they tie to the total. Click **Send** and enter your password. You can open the transfer's **details** afterward — and if you caught a mistake **before** it finalizes, you can **cancel** the transfer there.

- 1 Click **Continue**; verify the converted amount = the pay.
- 2 Enter the amount + fee so they tie to the total; **Send** and enter your password.
- 3 Open the transfer details to confirm (cancel here if you made a mistake before it sends).

Reviewing the transfer before sending — converted amount, amount, and fee.

Step 4 — Record the payment in QuickBooks

Record each Wise payment against the vendor's bill in QuickBooks. Open the **vendor bill**, **View/edit**, and enter the correct amounts (they change month to month). Save, then **mark it paid**: enter the **reference number** from the Wise transfer, break the **fee** out to bank charges, and — the crucial part — change the bank account to **Transfer Wise** (not Pinnacle/One Florida). Confirm the amount + fee tie to what you sent.

- 1 Open the vendor bill → **View/edit**; enter the correct amounts; Save.
- 2 Mark paid; set the bank account to **Transfer Wise**.
- 3 Enter the Wise **reference number**; break the fee out to bank charges.
- 4 Confirm the amount + fee tie to the Wise transfer.

Recording the payment in QuickBooks — the Wise transfer details used to fill the bill.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:10:11

“You have to remember to change the bank from Pinnacle Bank to Transfer Wise so that you get that in the right account... that’s the crucial part.”

Step 5 — Recurring bills (handle with care)

Many contractors are set up as **recurring** bills that QuickBooks creates on the **25th**. Because the amounts change (exchange rates and quarterly incentives), don’t just trust the recurring amount. Either update the created bill with the correct figures, or — to capture current data now — go to **Recurring transactions**, **skip** the next scheduled date, and **copy the bill** to enter it manually.

- 1 Expect recurring vendor bills to generate on the 25th.
- 2 Update each created bill with the correct amounts before marking paid.
- 3 Or: Recurring transactions → **skip** the next date → **copy the bill** to do it now.

Skipping/copying a recurring vendor bill so the current amount is captured.

Incentives are paid in arrears. Quarterly incentives (e.g. Q2 = April–June) are paid at the end of the **following** month (July) — they're included in that month's total, so amounts spike those periods.

Step 6 — Exceptions & special cases

A few contractors don't follow the standard flow. Peru/Philippine contractors **send invoices** to accounting — update the bill with their **invoice number**; note that some hold **USD** accounts (no conversion shown) and some hold **Philippine peso** accounts. **Gerardo** relocated to Florida and is paid by **ACH** to a US bank; **Ali Lozano's** bank can't receive Wise, so he gets an **FX wire** each month. When someone leaves (e.g. **Jonathan**, via the reduction in force), pay the final amount and **flag them off** the list so they aren't paid again.

- 1 For Peru/Philippine contractors, update the bill with the invoice number they send.
- 2 Watch USD vs. Philippine-peso accounts (conversion shows only for peso).
- 3 Gerardo → ACH to a Florida bank; Ali Lozano → FX wire (bank can't take Wise).
- 4 Remove departed contractors (e.g. Jonathan) after their final payment.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:18:49

“Ali Lozano... his bank is not set up to accept Wise, so we have to do an FX wire for him every month — but it's definitely cheaper to use Wise than to send funds through the bank.”

Step 7 — Generate a Wise statement for reconciliation

For bank reconciliation, pull a Wise statement. From the Wise **Home** screen go to **Statements and reports** (See all), choose **Create a statement**, select the **currency (USD)** and the **date range** (e.g. July 1–31), and export as **PDF** (English). **Do not** check “display transaction fees separately.” Download it, save it to the accounting folder, and attach it to your bank reconciliation.

- 1 Wise **Home** → **Statements and reports** → **Create a statement**.
- 2 Select currency USD and the date range; export as PDF (English).
- 3 Leave “display transaction fees separately” **unchecked**.
- 4 Save to the accounting folder and attach to the bank reconciliation.

The Wise statements area — export a PDF statement for the bank reconciliation.

FROM THE MEETING TRANSCRIPT — Greg Coble, 00:28:07

“Do you want to display transaction fees shown separately — I say no... then generate, download the statement, save it to the accounting folder, and attach that to your bank reconciliations.”

Quick reference

The pay flow, key rules, and glossary

The pay flow (per contractor)

- 1 Toggle to the entity balance (Paser or RedTeam).
- 2 Recipients → select contractor → Send; enter USD; confirm the converted amount = their pay.
- 3 Reference = initials + month; Continue → verify → enter amount + fee → Send.
- 4 In QuickBooks: open the bill, enter amounts, mark paid, bank = **Transfer Wise**, reference = Wise number.

Key rules

- Fund Paser (Pinnacle) and RedTeam (One Florida Bank) **separately**; toggle balances in Wise.
- Always set the QuickBooks bank to **Transfer Wise** when marking paid.
- If Wise asks whether a reference is a person's name, reply **no**.
- Recurring bills: update the amount (exchange rate + incentives change it).
- Statements: PDF, USD, fees **not** shown separately.

Payment-method exceptions

Contractor	Method
Most Peru / Philippine contractors	Wise (peso or USD account); update with their invoice number
Gerardo	ACH to a US (Florida) bank account (relocated)
Ali Lozano	FX wire (bank cannot receive Wise)
Departed (e.g. Jonathan)	Final payment, then removed from the list

About the quotes. The green “From the meeting transcript” quotes are verbatim from the meeting’s official Google Meet transcript (lightly trimmed for filler words).
